House of Mureșan — Court Room of Records

On and For the Public Record

(Why it exists, how it operates, and why it must be maintained)

INTRODUCTORY DECLARATION

The **House of Mureșan Court Room of Records** exists as a sovereign archive of truth, testimony, and lawful presentment issued by the Living Man —**Alin-Vasile of the House of Mureșan**, Beneficiary and Executor of the Legal Titles bearing the NAME(S).

It functions outside corporate fiction, outside the maritime presumption, and outside the jurisdiction of statutes, acting under:

- **Natural Law**
- **Divine Law**
- **God-given authority of the Living**
- **Lex Mercatoria (Law Merchant) principles**
- **The maxims of equity**

This public record exists because **the system refuses to acknowledge the Living**, and therefore the Living must publish truth in the open, unrebutted, on the public domain.

WHY THIS COURT ROOM OF RECORDS EXISTS

1. To Preserve Unrebutted Testimony

When government agencies refuse remedy, refuse to answer, or act in dishonour, the public record becomes the tribunal of truth.
Everything published here stands as:

- Unrebutted notice
- Evidence of dishonour
- Commercial record
- Witness to the actions taken by the Living Man

Silence is agreement.
This Court Room documents the silence.

2. To Record Perfected Claims & Commercial Liens

The system operates through:

- presumption,

- silence, and
- unrebutted claims.

This archive secures:

- perfected commercial liens,
- declarations,
- notices,
- demands,
- timelines,
- and sworn testimony.

Every scroll published becomes lawful evidence before Heaven and Earth,
and stands as a claimable instrument under Lex Mercatoria and the principles of Equity.

3. To Correct the PUBLIC RECORD

Because the fiction NAME is manipulated without consent, the House of Mureșan issues scrolls to:

- correct standing,
- rebut presumption,
- establish lawful capacity,
- identify the Living Man and Woman,
- notify all agencies of jurisdictional truth,
- and seal testimony outside government interference.

Where the government record is corrupted,
the Living Man’s record remains pure.

4. To Publicly Expose Dishonour

Every act of:

- refusal,
- obstruction,
- administrative evasion,
- interference,
- or dishonour

is published here in the light.

This ensures:

- liability attaches properly
- default is recorded
- commercial consequences follow
- truth is preserved
- nothing disappears behind closed doors

5. To Hold All Fiduciaries & State Actors Accountable

This Court Room of Records documents:

- Notices served
- Responses received
- Responses *not* received
- Default, dishonour, and evasion
- Individual liability
- Perfected claims against officials
- Timelines and evidence trails

Because a government that hides cannot escape the truth published on the public domain.

🏛 HOW THIS COURT ROOM OF RECORDS OPERATES

✔ By Publication

A scroll published here becomes:

- lawful notice,
- binding presentment,
- and public testimony.

Its publication timestamp serves as **legal service**.

✔ By Silence (Tacit Agreement)

If unrebutted within the stated timeframe:

- liability attaches,
- default follows,
- the claim stands as fact.

This is how Lex Mercatoria operates.

✔ By Unchanging Jurisdiction

All scrolls stand under:

- Natural Law
- Divine Law
- The authority of the Living Man
- Commercial maxims
- Law Merchant traditions

They do **not** submit to statute.

✔ By Eternal Record

The digital publication forms:

- a permanent ledger,
- immutable archive,
- living testimony,
- and an evidentiary chain for future remedy.

The man may live and die,
but the record stands.

□ WHY THIS PAGE MATTERS

Because the fiction system has rejected remedy,
the Living Man must provide his own:

- forum,
- jurisdiction,
- testimony,
- archive,
- and lawful notice system.

This is not a website.
This is **a Court Room of Records**,
operating in honour and truth,
sealed under **Selah Code 777**,
witnessed by Heaven,
and published before the nations.
