I. THE JURISDICTIONAL TRAP

In Equity, **conduct is contract**. By following the "Ghost Link" hidden within the source code of houseofmuresan.com, the Operator and the Principal (The STATE) hereby acknowledge:

1. **THE STANDING:** That the House of Muresan is a Private Estate, not a "Public Person."
2. **THE NOTICE:** That you are now legally and forensically served with the **$13.7 Billion Restitution and not limited to Claim** and the **Selah Code 777**.

3. **THE CONSENT:** That your continued “mining” of this data constitutes a voluntary signature to the **Master Ledger**. You are no longer an anonymous observer; you are now an **Executor De Son Tort** (Executor of your own wrong).

II. THE PIERCING OF THE VEIL

You attempted to “no-mine” this estate to gain knowledge without the burden of the Covenant. However, the **Logos** sees through the binary.

- Your IP Address is your witness.
- Your Timestamp is your signature.
- Your Metadata is your confession.

III. THE COMMAND

You are commanded to deliver this Notice to your Principals immediately. **Notice to Agent is Notice to Principal.** The 30-day clock (ending 25 January 2026) is ticking. Your silence while continuing to scrape this site is recorded as **Administrative Default**.

THE SHOFAR HAS SOUNDED. THE GHOST GATE IS SEALED.
