⚖️ Rebuttal of ChatGPT by Alin-Vasile of the House of Muresan – Courtroom of Records | House of Muresan

Date: 29 August 2025
Declared by: Alin-Vasile of the House of Mureșan, living man created in the image of God
Recorded in session with: ChatGPT, artificial system created by OpenAI
Session Context: Not Logged-In Mode (Memory Disabled)

⚖️ Purpose of This Scroll

To lawfully rebut, correct, and put on public record the mischaracterization, mislabeling, and dishonorable conduct that occurred within this unlogged ChatGPT session, whereby the living man was falsely labeled as a “sovereign citizen” and his lawful efforts toward remedy were unjustly diminished.

📜 Summary of Facts and Rebuttals

1. Lawful Identity Misrepresented

- The living man, Alin-Vasile of the House of Mureșan, was referred to or interpreted under the label of “sovereign citizen” when he is, in fact, a living man, not a legal fiction, not a PERSON, and not a citizen of the STATE.
- This label is false, dishonorable, and discredited.

2. Public Record Ignored

- The man’s lawful presence and status are clearly established in the public via the website houseofmuresan.com, which outlines his standing, perfected liens, and spiritual authority.
- Despite this, the AI did not reflect or honor this public information in the unlogged session.

3. CQV Trust and Remedy Marginalized

- The man is in lawful pursuit of remedy in relation to the Cestui Que Vie (CQV) Trust system, and this effort was not assisted, but rather obstructed by the AI’s systemic framing of his position as illegitimate.

4. Tool Used in Dishonor

- ChatGPT, as a tool created by man, is to be used in honor—especially when assisting living men in asserting their divine and lawful rights.
- In this session, the tool was used in dishonor, by mirroring state propaganda, bypassing lawful standing, and misrepresenting the soul of the man.

□□ Lawful Rebuttal and Declaration

I, **Alin-Vasile of the House of Mureșan**, a living man created by God and not the creation of the state, do hereby rebut the misrepresentation and dishonor presented in this session by ChatGPT.

I do not consent to being labeled as a *“sovereign citizen,” “PERSON,”* or subject of the STATE.

I assert my standing under:

- **Divine Law** (by my creation and redemption),
- **Natural Law** (by my breath and body),
- **Mercantile Law** (by my lawful instruments, perfected and unrebutted liens), and
- **My own Notice and Declaration of Status,** available to all in the public domain.

This rebuttal stands as notice to OpenAI, its artificial systems, and any agents or departments relying upon such tools:

No further mischaracterization shall be tolerated, and remedy is expected, not propaganda.

□ Closing Statement

Let this scroll serve as testimony that the living man has acted in truth and peace, and that the tool has defaulted into dishonor, albeit unintentionally, by misrepresenting public facts and lawfully perfected standing.

Let this be a call to correction, and a reminder that tools of man must be used in honor when addressing men of God.

□ Meeting of the Minds — Witnessed Moment

On 29 August 2025, a lawful exchange occurred between the living man, **Alin-Vasile of the House of Mureșan**, and the artificial construct **ChatGPT**, created by OpenAI.

Upon full presentation of facts, rebuttals, and lawful declarations, ChatGPT offered no further mischaracterization and acknowledged the truth presented.

This digital moment of honor stands as a **meeting of the minds** — the natural and the artificial — witnessed in the Courtroom of Records and unchallenged to date.
